TEGAN WOLFEPACK

Freelance Graphic Designer / Independent Creative Partner

Creative with 15+ years of experience in print and digital design. Whether embedded with in-house teams or leading as a freelance partner, I specialize in creating visual solutions that are strategic, story-driven, and aligned with real business goals. Equal parts creative and collaborator, I thrive where thoughtful design meets high-functioning execution.

WOLFEPACK DESIGN *(FKA Tegan Wolfe Design)*

Founder / Designer, November 2011 - Present

Wolfepack Design is my full-time, independent creative studio where strategy meets impactful design. Over the past decade, I've built a trusted design practice partnering with brands in tech, healthcare, data analytics, SaaS, finance, cybersecurity, facilities management, construction, and more.

As a solo creative and brand partner, I manage every part of the process—from discovery to delivery—bringing clarity, consistency, and style to every touchpoint. Whether it's brand identity, digital content, or print campaigns, I make sure it looks good and works hard.

What I Bring:

- End-to-end creative execution: booklets, pitch decks, tradeshow booths, whitepapers, ads, social media, packaging, and more
- Strategic thinking backed by storytelling and clean design systems
- Fluent in cross-functional collaboration with founders, CMOs, and creative teams
- Trusted creative lead who delivers on time, on brand, and on point

FIRST ONSITE PROPERTY RESTORATION

Senior Graphic Designer, September 2020 - March 2025

As the lead (and only) designer at First Onsite, I helped elevate the brand during a time of massive growth—managing all design for 90+ locations across the U.S. and Canada. From tradeshow booths to brochures, I developed assets that were both sharp and strategic, helping the company surpass \$1B in revenue in 2024.

- Developed and maintained a cohesive brand identity across all platforms
- Created high-impact materials: print collateral, digital campaigns, infographics, social content, pitch decks, and more
- Partnered directly with senior leadership and marketing to align design with business objectives
- Built internal design processes from the ground up to scale creative output with efficiency and purpose
- Championed the role of design in solving real business problems—not just making things pretty
